Print this double-sided, if your printer does it.

If your printer does not do double-sided, print the first side, then flip the paper over on the long side (so the image is on the edge going into the printer) and insert into the paper tray and then print the second page.

and see what pictures
your imagination finds

*Do you see an animal?
A shape? A story
waiting to be told?*

small and beautiful
today—
a pattern in tree bark,
a leaf vein, a pebble, or a
tiny sprout.
Hold it for a moment
and really look.*

Quiet Wonder Walk

*Take a slow walk
without talking for a
few minutes.
Notice colors, shadows,
sounds, and shapes you

growing—a plant, a bud,
moss, or grass.
Imagine what it looked
like when it first began
and what it might
become.*

*Look at the clouds (or
the sky at dusk).
What shapes or stories
do you see drifting by?*

Flashlight Wonder Walk

*Turn off the lights or
wait until evening.
Use a flashlight to shine
on just one thing at a
time and notice details
you've never seen before.*

Winter Warmth Recipes From Mrs. Claus's Kitchen:

Mrs. Claus's Quick & Cozy Hot Cocoa

When the elves come in with rosy cheeks and cold noses, this is the cup I reach for first. Simple, sweet, and ready in minutes — because sometimes warmth can't wait.

Ingredients

- 1 cup milk (any kind you like)
- 1 tablespoon cocoa powder
- 1 tablespoon sugar (more or less to taste)
- ¼ teaspoon vanilla extract
- A pinch of salt

Directions

Warm milk in a small saucepan over medium heat (or in the microwave).

Whisk in cocoa powder, sugar, vanilla, and salt until smooth and steamy.

Pour into your favorite mug and enjoy.

✨ **Optional Magic:** Top with whipped cream, marshmallows, or a sprinkle of cinnamon.

Mrs. Claus's Rich & Creamy Crockpot Hot Cocoa

This is the kind of cocoa we make when the snow falls softly and the day stretches on — rich, chocolatey, and meant to be shared.

Ingredients

- 4 cups milk
- 1 cup heavy cream
- 1 (14-oz) can sweetened condensed milk
- 1½ cups semi-sweet chocolate chips
- ½ cup milk chocolate chips
- 1 teaspoon vanilla extract
- A pinch of salt

Directions

Add all ingredients to a slow cooker.

Cook on LOW for 2 hours, stirring occasionally, until chocolate is fully melted and cocoa is smooth and rich.

Switch to WARM and serve with love.

✨ **Optional Magic:** Set out marshmallows, whipped cream, crushed candy canes, or chocolate shavings and let everyone make their own perfect cup.

However you stir it — fast or slow — the Magic is in the warmth you share."

Nova- the Wonder Elf

✨ Wonder Elf's Introduction

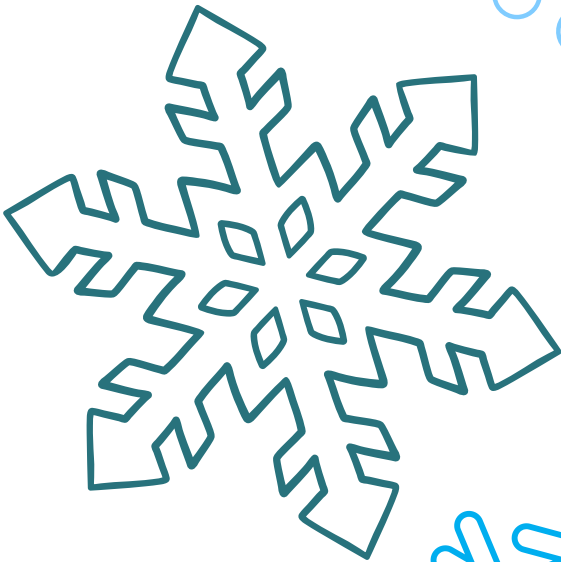

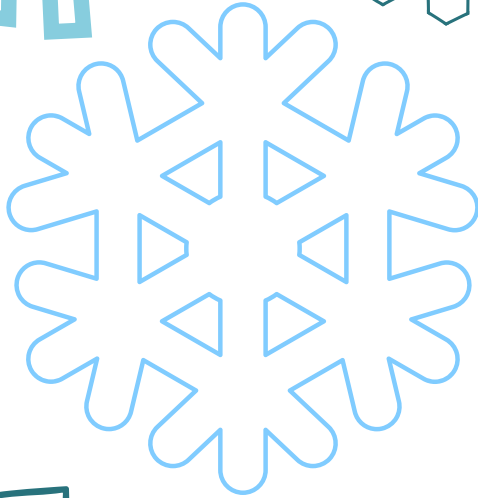

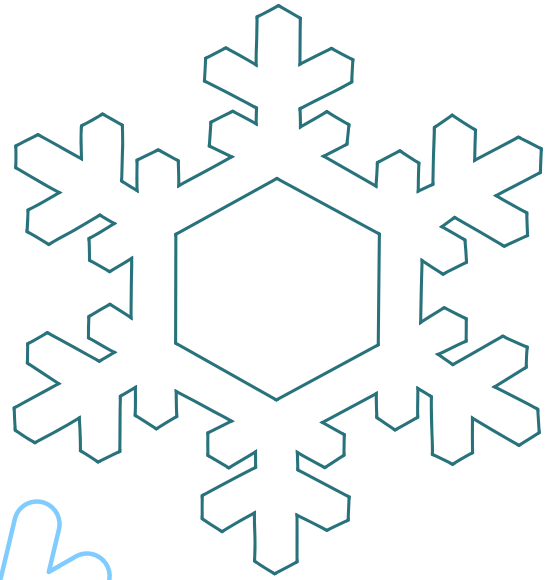

Hello there, friend! ✨

I'm Nova, the Wonder Elf, and I carry a little lantern to remind me of something special. Even the smallest light can brighten the darkest winter night. ❄️ ✨ Wonder works the same way – it begins with noticing, imagining, and asking curious questions.

When you slow down and look closely, you'll find Magic hiding everywhere: in snowflakes, glowing lights, quiet moments, and brand-new ideas waiting to be discovered.

This winter, I invite you to be a Wonder Keeper. Let your imagination wander, your curiosity lead the way, and your heart stay open to all the Magic around you. And don't forget – you can color me in to bring my lantern to life! With stardust and sparkle,

Nova the Wonder Elf 💙 ✨

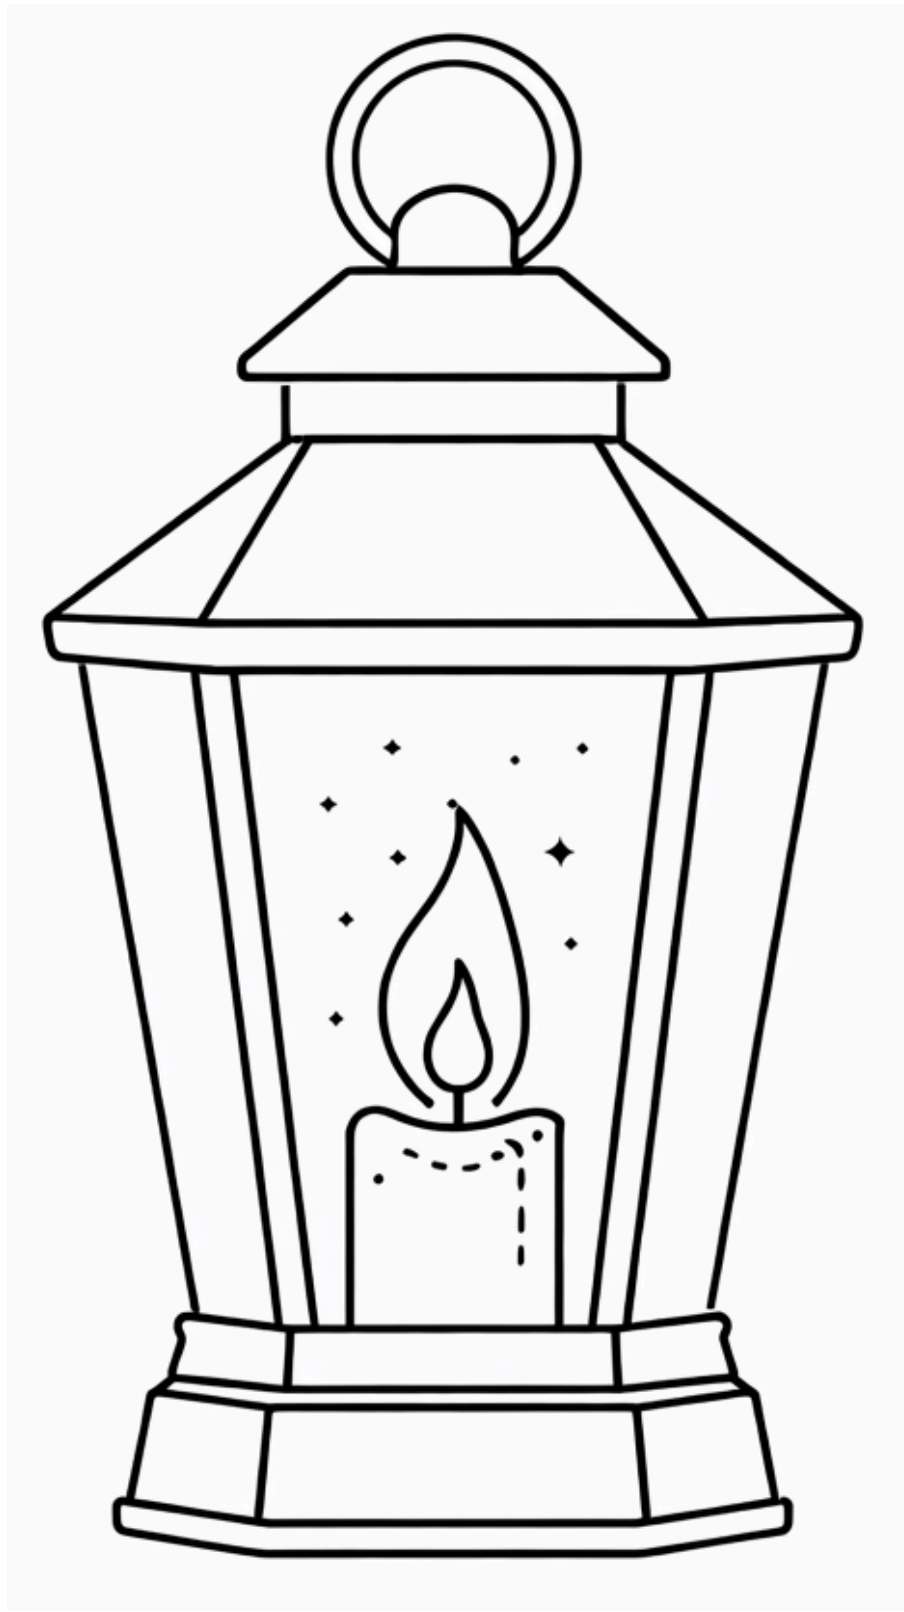

Each snowflake is unique and beautiful

A Note from the Elves

Every snowflake is special.  Some are tiny, some are wide, some sparkle more than others – but no two are exactly the same. Each one is wonderfully unique.

Children are like snowflakes, too. Every child is made a little differently, with their own ideas, feelings, and way of shining. That's part of what makes the world so magical.

As you color these snowflakes, remember: your uniqueness is not a mistake – it's your Magic. 

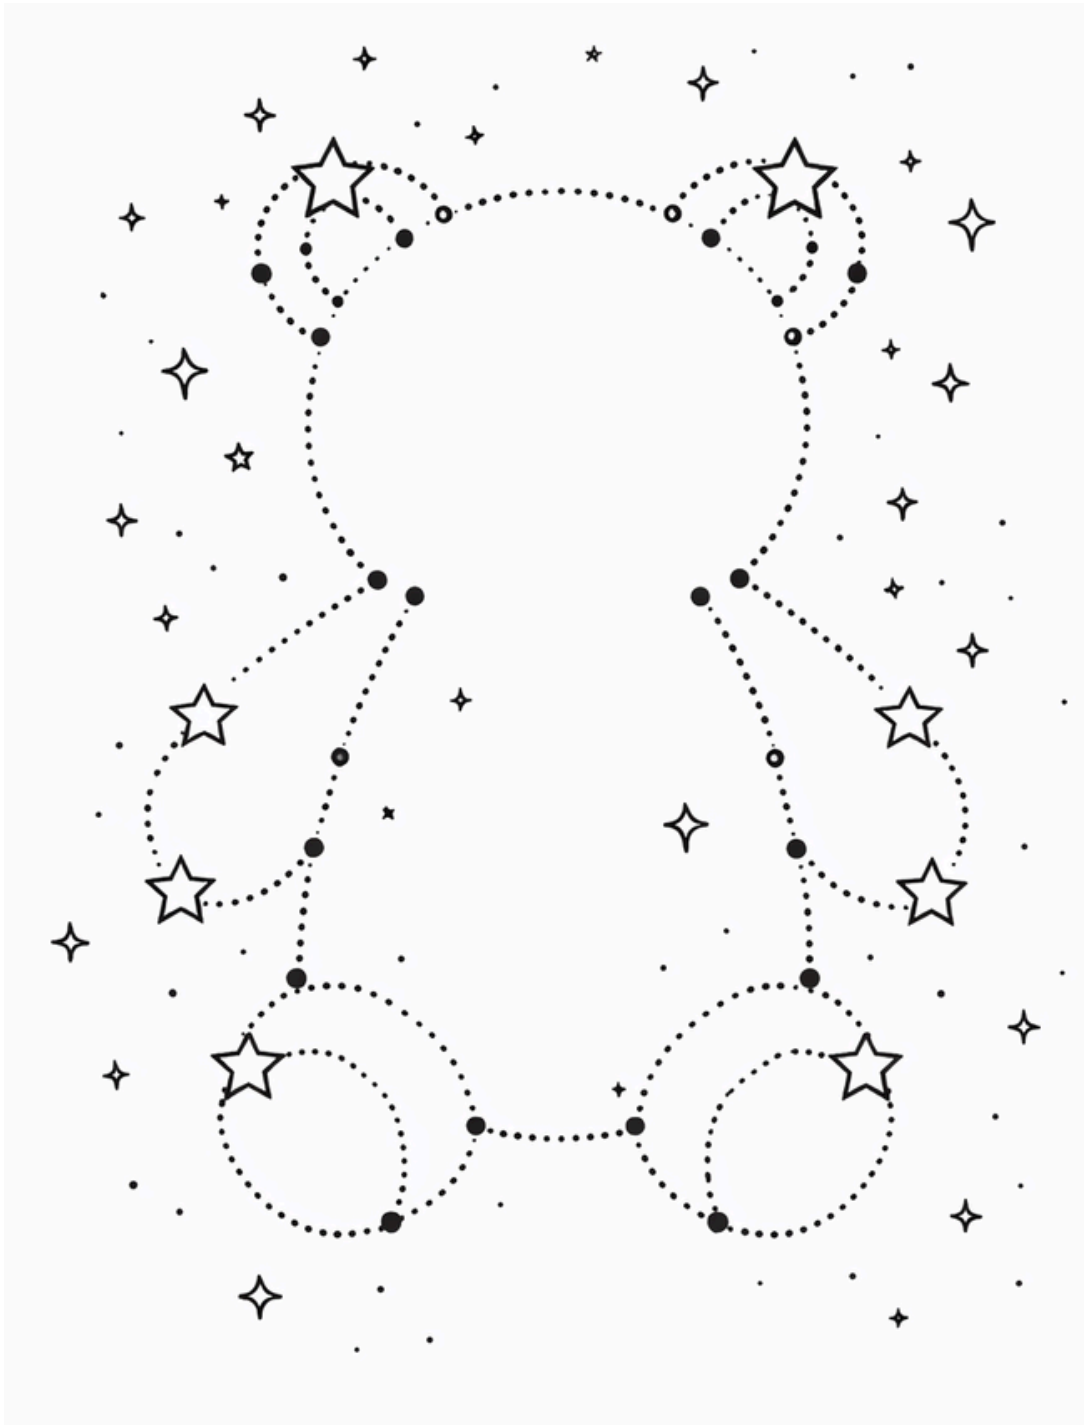

Even the smallest light can brighten the darkest night.

☀️ *A Note from the Wonder Elf*

Have you ever noticed how even a small lantern can light the way on a dark winter night? ❄️ It doesn't have to be bright – it just has to glow.

Wonder works the same way. A curious thought, a quiet question, or a moment of imagination can shine more light than you might expect.

As you color this picture, remember: even the smallest light you carry can spark bright Magic. ✨

Trace the dots and draw a face

☀️ When you look at the stars, you might notice shapes and pictures hiding in the sky. Everyone sees something a little different – and that's part of the fun! As you look at these stars, imagine what they could become, and let your Wonder shine. ✨

Want to keep the Wonder going?

We've tucked a Winter Wonder Quest inside the Santa Legacy app — a quiet way to notice beauty, spark imagination, and carry this magic into everyday moments.
